DETAILED ACTION

Formal Matters

Claims 17, 19-21 are pending and under consideration.

The attached Interview Summary indicates that an attempt was made to agree on language that would put the claims in condition for allowance with Applicant's Attorney Christine Oday. The Examiner thanks Attorney Oday for her diligence, however, agreement with regards to the claim language could not be timely reached, and this action is set forth.

Response to Amendment

The rejections over claims 17, 19-21 have been obviated by Applicant's amendment and are thus withdrawn.

New issues are set forth below.

Claim Objections

Claim 21 is objected to because of the following informalities: the method steps are listed with number identifiers. This is confusing, and would be clarified by identifying the method steps using letters. Appropriate correction is required.

Claim Rejections - 35 USC § 112 second paragraph

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 19-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1646

Claims 19-20 are vague and indefinite in the recitation wherein the protein is “isolated from human” and “isolated from kidney”. Presumably, the claim is directed to a method wherein the protein comprising SEQ ID NO: 2 is encoded by a nucleic acid isolated from a human or isolated from kidney.

Claim 21 is vague and indefinite in that the method makes use of two oocytes, but they are not clearly labeled “first oocyte” or “second oocyte”.

Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: the claim does not contain a comparison step. This rejection could be obviated by adding language such as “and comparing the amount of organic anion transported to the amount of organic anion transported in the absence of said compound”.

Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: an identification step. This rejection could be obviated by adding a limitation such as “as measured in step (c), wherein a test compound which reduces the amount of organic anion transported is considered an inhibitor of organic anion uptake”.

Conclusion

No claim is allowed.
